

My school

I like going to school very much. I've got lots of friends and most of the lessons are interesting. The best thing about my school is that there are some fascinating teachers who help me to study better. I

love studying physics because I understand anything about life when I study it. The worst thing about school is homework. The teachers are nice but they always give us too much homework.

I don't have time to do it.

My home

My house has only two bedrooms, and it has a small garden at the back. It's good for me because it's near my school and the city centre. When you come in the front door, there is a long hall to my living room. It's comfortable and cozy room. Go straight on you can see my kitchen with the dining room and bathroom behind it. From there you can walk straight into the garden. After that there's my parents' bedroom and finally you come to my bedroom. I love my house very much because it's where I relax after studying at school.

My friend

Of all my friends, I like Lisa the most. We've studied together since grade 1 and now we are both eleven, the age of sweet dreams. She is of medium height. She has straight black hair.

With round wide eyes and white teeth, Lisa looks like an angel. Her smiling face is the thing I like most about her. She is a person who is always understanding, caring and helpful. Lisa is very humorous. Anywhere, anytime she can tell jokes to me. In short, Lisa is my beloved friend, and I believe that nothing is going to change my love for her.

My favorite TV programs

I like the news program. The news programs shown on all TV channels at 7:00 p.m. help me to know almost everything about different places in our country and important events happening all over the world. Through these programs, I can also know about the main national and international sporting events.

My favorite sport

I like football best. Because it is interesting. Football is a team sport played between two teams of eleven players each. It is a ball game played on a rectangular grass field with a goal at each end. The objective of the game is to score by maneuvering the ball into the opposing goal. The winner is a team which has scored most goals at the end of the match.

My hobby

I have a lot of hobbies but my favorite hobby is learning English. I started my hobby 8 years ago (when I was 5 years old). I often share this hobby with my big sister. I often learn English with my sister after school. I find learning English interesting, funny and it helps me to speak English well. I love my hobby very much. In the future I will continue this hobby. I hope I will learn English well.

Staying healthy

Staying healthy is the most important in our life. There are a lot of activities for us to stay healthy. For me, I usually swim in the river in front of my house. I often swim with my father every afternoon. I swim about 2 hours every day. Swimming help me relax after working hard and it also helps me have a good heathy. I like swimming very much because I want to be a swimmer.

My favorite music

Pop music is a piece of popular music in your country.

Many people like listening anytime. Pop music is also my favorite music. I often listen pop music in my free time. I like it for some reasons. Firstly, it helps me relax. Whenever I feel down or tired, I usually listen to pop music to relax or fall asleep. Then, my feelings actually become better. Secondly, music helps me make friends. When we have free time, we usually talk about a song and sing it together. Finally, music also helps me work more effectively. It is true that I am very lazy of cleaning my room, but when I listen to a pop song, I do very well and fast. In sum up, music is an important part of my life, especially, pop music.

Life in the countryside

I like living in the countryside because of some reasons.

Environmentally speaking, it is a peaceful place. The air is

fresh. The space is quiet. We can enjoy healthy natural

conditions without worrying much about environmental

pollution. As for social security, the countryside is a safer

place than a city. While urban security situation is always

complicated with all kinds of crimes, rural areas are

much more secure because most of countrymen are

friendly and ready to help one another. Moreover, rural

life is also easier than in cities. People in cities are easy

to get stressed because of pollution, job pressures,

competitions, etc. On the contrary, those bad things are

very rare in the countryside. To sum up, except income

matters, the countryside is a better residence than cities.

Life in the city

If anyone has ever lived in the city, there are many benefits to being here. The city is a place of economic development. It is not difficult for you to find a job. Therefore, many people tend to come to big cities to live and develop. While living in the city, you can meet many knowledgeable and knowledgeable people. From there add self-improvement. Quality of life in cities will be fundamentally better than in the countryside. The quality of training in the city is also better than that in the countryside. Most of the quality schools are located in cities. In the city there are many modern and convenient entertainment areas. This is a safe and reasonable place to play for all families. As a young person who likes new and comfortable things, I enjoy life in this beautiful city.

My dream job

My dream career in the future is to be a math teacher. I love formulas, arithmetic, equality, number solving. As a kid, I was a little girl with a passion for numbers. I have observed the teachings of the teachers who have taught me. After that, I researched and learned more about how to convey, specialized knowledge. I know that to be a teacher, in addition to improving knowledge, there must be patience, confidence and generosity. Teacher is a good job but faces a lot of stress, such as: grades, teaching methods, students, ... Although this career has many challenges, I always choose to pursue my dream. yourself. It is still a long way to go to my dream career, and I am sure I will always learn new and necessary things to be a good teacher.

Protecting our environment

Environment is an essential part of our life. A clean environment is necessary for a peaceful and healthy life. An environment is the natural surroundings which helps human beings, animals and other living things to grow and develop naturally. But nowadays, our environment is disturbing in many different ways. Any type of disturbance in nature's balance affects the environment totally. It does not only ruin human lives but also affects all living beings. We can save our environment with the little step taken by everyone on the earth. We should reduce the amount of waste, throwing wastes properly to its place only and many other simple ways. It is very important to save the environment for human existence. When we protect the environment, we are protecting ourselves and our future as well.
